## OUR CARE GIVERS

When it comes to home care, there are many choices. However, only you can choose what is right for you. At Nina's Healthcare, we strive to make your experience one that is positive and focused on your needs.

You are in charge of everything. It is our job to adjust to your schedule as we deliver care to you in your home. We monitor our caregivers through personalized contact and our supervision is ongoing. We will work with your physicians and other providers to give you the best care possible

## CHARACTER & EXPERIENCE COUNT!

Our caregivers have a strong employment history with references from reliable sources. We interview our staff and screen our applications to ensure character and experience.

## ABOUT US

Exceptional care with exceptional service describes us best. Founded by Healthcare professionals with over 70 years of experience, Nina's Healthcare Services provides a wide range of personalized clinical and non-clinical services, all managed by a seasoned team of nursing professionals and care givers. Our mission is to promote personal choice and the highest quality of life whether handling a temporary situation or facing long term needs.

Because the process of coordinating the best plan of care can often be overwhelming, our team is available to answer your questions and respond to your needs at any time, whether you are in the planning stages or utilizing our services. All clients have access to a complimentary nurse consultation to ensure an accurate and holistic assessment of needs.

With our service comes the peace of mind knowing that staff employees are thoroughly screened, background checked and credentialed. Each employee is interviewed at length by a member of our management team to ensure the best possible client match. In addition, Nina's Healthcare Services carries full general and professional liability coverage, worker's compensation insurance and assumes liability for payroll taxes. Our service area currently includes these areas in the state of Ohio, Columbus, Dayton and Chillicothe.

We are privately owned and meet the guidelines for Medicare and Medicaid certification
